

Electronic ballast - compact

... is characterized by compact construction and a high degree of efficiency respecting to disinfection and energy consumption. The construction design follows laws, standards and regulations..

manufacturer	PURION® GmbH
type	Vorschaltgerät kompakt
dimensions (L x B x H in mm)	max. 273 x 49,7 x 50
weight	0,3 Kg
operating temperature	-20°C
protective system	IP 54
electrical connection	110-240 V 50/60 Hz
total power	10 - 36 W/ 48W/ 90W
over current protection	10 A

This is electronic ballast is applied at:

cooled sales counter
refrigerated warehouses
applications with very small space for installations

The compact electronic ballast is encased by aluminium box.

The power supply is carried out with 110-240 V 50/60 Hz.

The compact construction design enables a space saving installation also under extreme conditions.
Hinges for easy installation are on the front end.

Advantages

- minimized dimensions
- for applications up to 36W cold resistant up to -20 C°
- for applications with 48W/ 90W cold resistant up to -5C°
